

财富包装（泰国）有限公司

FORTUNE PACKAGING (THAILAND) Co.,Ltd.

公司简介 Company Profile

财富包装（泰国）有限公司坐落于春武里府，是专注电子、五金、化工、食品等行业防潮防锈防护包装的一站式生产企业。

公司主营铝箔真空袋、防潮干燥剂、湿度指示卡、无硫隔离纸、不干胶标签等全套防护包装材料，依托泰国本地厂区，兼顾东南亚本地交付与中泰跨境供货，可定制尺寸、印刷、复合材质，满足线路板、精密元器件、金属配件、出口货品的防潮、隔氧、防氧化需求。

团队深耕包装行业多年，配套成熟生产设备，严控原材料环保标准，支持小批量打样、大批量量产，以稳定品质、快速交期服务泰国本土工厂及中资出海企业，提供一站式包装解决方案。

FORTUNE PACKAGING (THAILAND) Co.,Ltd. locates in Chonburi Province, is a one-stop production enterprise specializing in moisture-proof and-rust protective packaging for industries such as electronics, hardware, chemicals, and food. The company mainly offers a complete range of protective packaging materials, including aluminum foil vacuum bags, absorbers, humidity indicator cards, sulfur-free separation paper, and self-adhesive labels. Relying on its local factory in Thailand, it caters to both local Southeast Asian delivery and ChinaThailand cross-border supply. It supports customized sizes, printing, and composite materials to meet the moisture-proof, oxygen-barrier, and anti-oxidation needs of printed circuit boards (PCBs), precision components, metal parts, and export goods.

With years of deep experience in the packaging industry, a team supported by mature production equipment, and strict control over-friendly raw material standards, the company supports small-batch sampling and large-scale mass production. It provides one-stop packaging solutions with stable quality and fast delivery to local Thai factories Chinese enterprises expanding overseas.

组织架构 (Organizational Structure)

产品介绍 (Products Introduction)

光电铝箔

Optoelectronic Aluminum Foil

专为敏感半导体组件的高防护设计，确保在恶劣环境中的可靠性。

Designed for high protection of sensitive semiconductor components, ensuring reliability in harsh environments.

电子与化学真空

Electronic & Chemical Vacuum

用于防潮和防污染控制的专用包装袋，是化学和电子制造工艺的理想选择。

Specialized bags for moisture and contamination control, ideal for chemical and electronic manufacturing processes.

静态屏蔽系列

Static Shielding Series

在运输和储存过程中，为敏感电子元件提供防止静电释放（ESD）损坏的重要保护。

Provides essential protection against ESD damage for sensitive electronic parts during transit and storage.

产品展示 (Product Display)

 **晶圆级封装**
Wafer Level Packaging

专为半导体晶圆精密制造的包装袋，确保污染控制和静电防护。
Precision-engineered bags for semiconductor wafers, ensuring contamination control and electrostatic protection.

 **防静电屏蔽袋**
ESD Shielding Bags

定制印刷的高阻隔防静电袋，专为满足电子元件的严格行业标准而设计。
High-barrier ESD bags with custom printing, designed to meet strict industry standards for electronic components.

 **卷盘包装**
Reel & Tape Packaging

卷盘的安全包装解决方案，提供卓越的防潮性能和机械保护。
Secure packaging solutions for reels, providing excellent moisture resistance and mechanical protection.

产品展示 (Product Display)

大容量袋子
Large Capacity Bags

可根据特定产品尺寸定制，为大件物品提供卓越保护。
Customizable to fit specific product dimensions, offering superior protection for large items.

特制袋子
Specialized Bags

多功能设计满足各种包装需求，确保产品完整与新鲜。
Versatile design for various packaging needs, ensuring product integrity and freshness.

定制解决方案
Tailored Solutions

致力于提供以多功能性和质量为核心的客户定制解决方案。
Commitment to customer-specific solutions with a focus on versatility and quality.

产品展示 (Product Display)

卷轴包装

Reel Packaging

电子卷盘的防护包装解决方案，确保运输和存储安全。

Protective packaging solutions for electronic reels, ensuring safe transit and storage.

专用袋

Specialized Bags

专为托盘和特殊部件保护设计的定制长袋。

Customized long-form bags designed for trays and specialized component protection.

静电屏蔽

Static Shielding

高质量屏蔽袋，用于保护敏感电子元件免受静电放电（ESD）损坏。

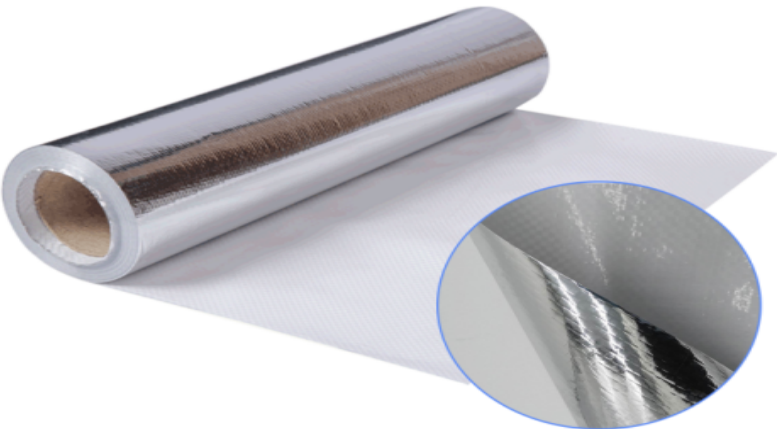

High-quality shielding bags to protect sensitive electronic components from ESD damage.

单面镀铝膜编织布

Single side aluminized woven cloth

产品用途：具有反射阳光产生的辐射热，应用于建筑屋顶的隔热材料和产品特性需要的隔热包装，可用作大型精密机械设备，化工产品的真空包装袋。

Product application: it has radiant heat generated by reflected sunlight. It is used as thermal insulation material for building roof and thermal insulation packaging required by product characteristics. It can be used as vacuum packaging bag for large-scale precision mechanical equipment and chemical products.

保温袋内衬

快递保鲜袋

屋顶保温隔热

地暖地板防潮

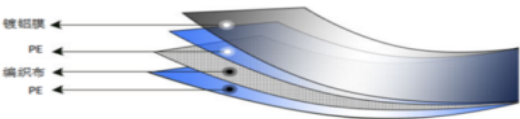

外卖保温箱内层

机械设备包装

名称 (name)	铝膜编织布	克重 (weight)	120gsm
结构 (structure)	镀铝膜+PE+编织布+PE	宽度 (width)	1-2.2M
长度 (length)	客户定制	渗透性 (permeability)	0.015gsm/KPA
反射率 (reflectivity)	>92%	纵向拉力 (longitudinal tension)	200N/25mm
最小起订量 (Minimum order quantity)	3000平方米	颜色 (color)	银色

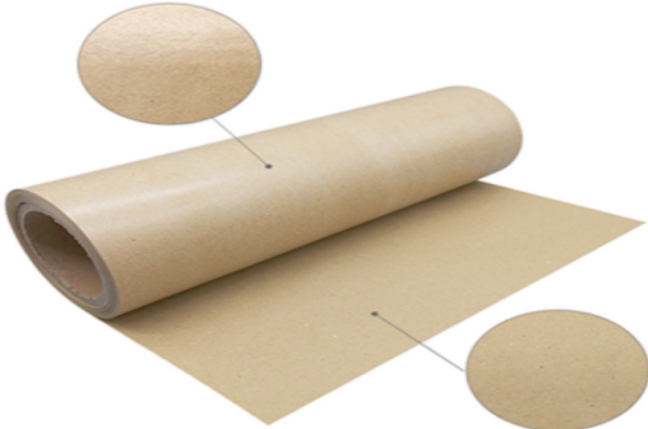

淋膜牛皮纸

Coated kraft paper

产品用途：具有防水防潮包装材料,使包装效果美观,提高了包装防护等级,通常用于食品包装,茶叶包装,防锈纸,五金不锈钢包装等领域。

Product application: it has waterproof and moisture-proof packaging materials, which makes the packaging effect beautiful and improves the packaging protection grade. It is usually used in food packaging, tea packaging, antirust paper, hardware, stainless steel packaging and other fields.

汉堡包装盒

食品包装纸

气相防锈纸

防锈缠绕带

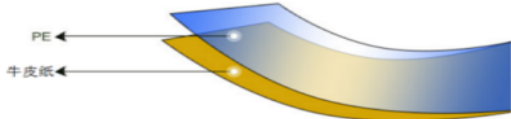

茶叶包装袋

环保牛皮纸袋

名称 (name)	淋膜牛皮纸	克重 (weight)	90 G/5qm
结构 (structure)	PE+牛皮纸	宽度 (width)	1-2.2M
长度 (length)	客户定制	渗透性 (Permeability)	0.015gsm/KPA
纵向拉力 (longitudinal tension)	150N/25mm	横向拉力 (Transverse tension)	180N/25mm
最小起订量 (Minimum order quantity)	3000平方米	颜色 (color)	白色、棕色等

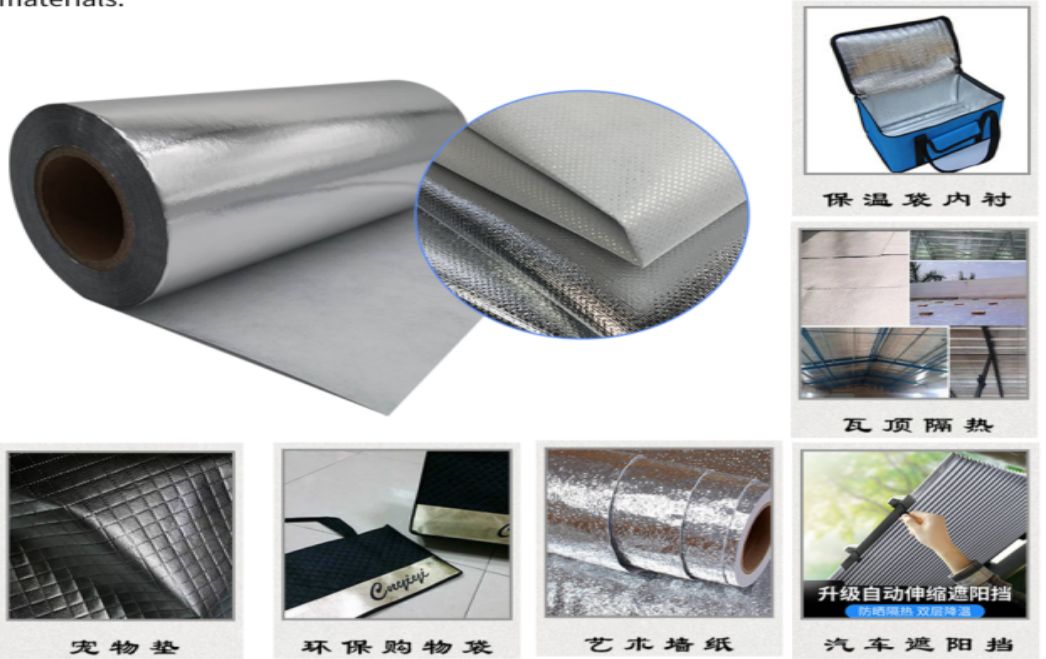

镀铝膜无纺布

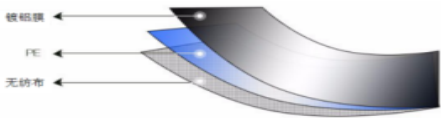

Aluminum coated non-woven fabric

产品用途：具有保温隔热功能的外包装材料，使包装效果美观，提高了包装防护等级，通常用于包装袋内衬及其他包装材料。

Product application: it is an external packaging material with thermal insulation function, which makes the packaging effect beautiful and improves the packaging protection grade. It is usually used for packaging bag lining and other packaging materials.

名称 (name)	镀铝膜 无纺布	克重 (weight)	80-150g/平方米
结构 (structure)	镀铝膜+PE+无纺布	宽度 (width)	1-2.2M
长度 (length)	客户定制	渗透性 (permeability)	0.075gsm/KPA
反射率 (reflectivity)	91%-92%	横向拉力 (Transverse tension)	120N/25mm
最小起订量 (Minimum order quantity)	1000千克	颜色 (colour)	天蓝，浅绿，白色，粉红，深咖啡

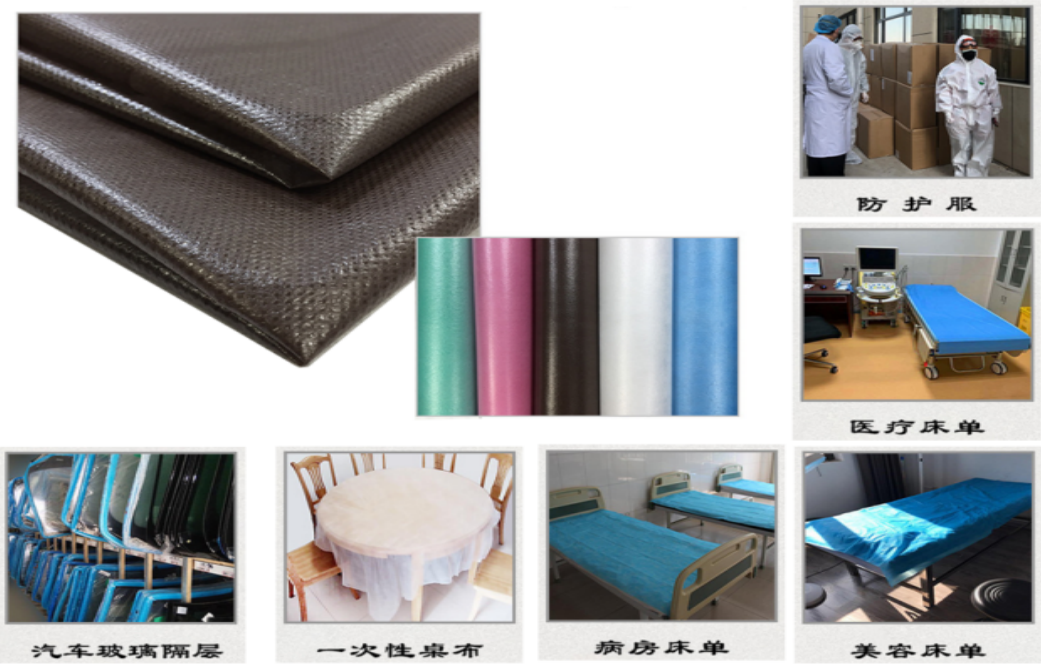

PP/PE淋膜无纺布

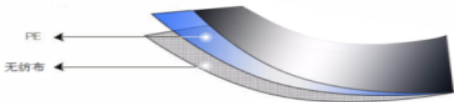

PP / PE coated nonwoven fabric

产品用途：具有透气，阻菌，隔离液体的外包装材料，使包装效果美观，提高了包装防护等级，通常用于医疗，卫生，防护，美容行业，工业及汽车工业等领域。

Product application: it is an outer packaging material with air permeability, bacteria resistance and liquid isolation, which makes the packaging effect beautiful and improves the packaging protection level. It is usually used in the fields of medical treatment, health, protection, beauty industry, industry and automobile industry.

名称 (name)	淋膜无纺布	克重 (weight)	40-45 (g/m²)
结构 (structure)	PE/PP+无纺布	宽度 (width)	1.45-2.2M
长度 (length)	客户定制	成分及含量 (Composition and content)	100%PP
最小起订量 (Minimum order quantity)	1000千克	颜色 (colour)	天蓝，浅绿，白色，粉红，深咖啡

防潮包装系统：可视化的安心保障

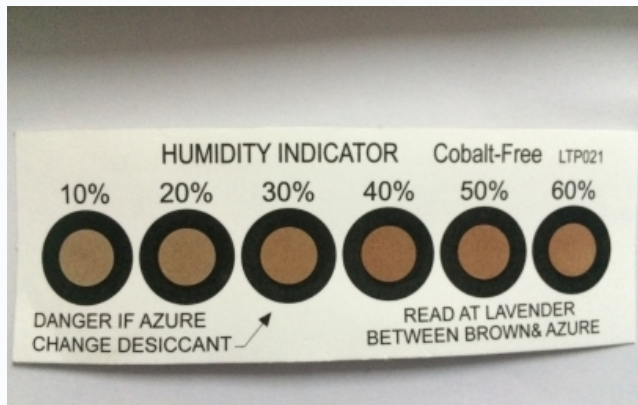

Moisture-Proof Packaging System: Visualized Reliable Protection

干燥剂 Desiccant

主动吸附包装内部残留湿气，维持低湿度环境。提供硅胶、蒙脱石等多种类型，适配不同产品的防潮需求，确保干燥效果持久稳定。

It actively absorbs residual moisture inside the package to maintain a low-humidity environment. Available in multiple types including silica gel and montmorillonite clay, it caters to the moisture-proof requirements of diverse products and delivers long-lasting, stable drying performance.

湿度指示卡

Humidity Indicator Card

直观监测包装内相对湿度(RH)，颜色变化提示干燥剂状态。采用符合RoHS指令的无钴环保材质，由专业制造商ESECO生产，安全可靠。

It enables intuitive monitoring of relative humidity (RH) inside packages, with color changes indicating the working status of desiccants. Manufactured by professional producer ESECO, this product adopts cobalt-free eco-friendly materials compliant with RoHS directives for safe and reliable use.

无硫纸 Sulfur-Free Paper

专为PCB电路板等敏感电子元件设计的隔层包装材料。有效防止纸张中的硫元素析出，避免金属触点发生电化学腐蚀，保障元件性能。

Layered packaging material specially designed for sensitive electronic components such as PCBs. It effectively prevents sulfur precipitation from paper, avoids electrochemical corrosion on metal contacts, and safeguards component performance.

公司宗旨 Corporate Creed

关于员工 For Employees

- 智慧注入每位员工，员工将智慧回馈给企业与社会。
- 帮助员工规划职业发展路径，提供成功的机会。
- 鼓励开放态与知识交流，促进价值提升。
- Wisdom is input into every employee, and employees return wisdom to the enterprise and society.
- Help employees design their career development paths and provide opportunities for success.
- Encourage an open mind and the exchange of knowledge, fostering value improvement.

关于客户 For Customers

- 以热情对待客户，展现真诚的服务态度。
- 设身处地为客户着想，深入理解他们的需求。
- 在所有业务往来中，以爱心和社会责任感行事。
- Treat customers with passion and show a sincere service attitude.
- Put yourself in the customer's shoes to understand their needs deeply.
- Act with love and social responsibility in all business interactions.

关于我们：您的专业包装顾问

About us: Your Professional Packaging Consultant

专业咨询

Professional Consultation

深入剖析产品特性与供应链流程，量身定制最适配的包装策略，规避潜在风险。

In-depth analysis of product characteristics and supply chain processes, tailor-made the most suitable packaging strategy, and avoid potential risks.

质量保证

Quality Assurance

严选全球优质供应商，所有产品均通过国际标准检测，严守环保与质量双重底线。

Carefully select premium global suppliers, ensure all products pass international standard testing, and strictly adhere to the dual bottom lines of environmental protection and quality.

一站式服务

One-Stop Service

整合材料供应、设计研发与技术支持，提供全流程闭环服务，简化您的采购管理。

Integrate material supply, design and development, and technical support to provide a full-process closed-loop service, simplifying your procurement management.

本地化服务

Localized Service

立足泰国辐射东南亚，提供极速响应的物流与售后支持，确保服务时效与灵活性。

Based in Thailand and radiating across Southeast Asia, providing rapid-response logistics and after-sales support to ensure service efficiency and flexibility.

我们不仅仅是包装材料的供应商，更是您值得信赖的包装解决方案合作伙伴。我们深入行业，理解需求，致力于为您提供高效、环保且符合成本效益的包装方案。

We are more than a supplier of packaging materials; we are your trusted partner for comprehensive packaging solutions. With in-depth industry insights and a thorough understanding of your demands, we are committed to delivering efficient, eco-friendly and cost-effective packaging solutions.

我们的愿景 Our Vision

深耕行业，持续创新，致力于成为精密制造业最值得信赖、最具价值的包装解决方案提供商。

Deeply rooted in the industry, continuously innovating, and committed to becoming the most trusted and valuable packaging solution provider in the precision manufacturing.
